

# ARES AEMERGENCY@OR ADRILL@ NET SETUP

*( Based on previous activations. Not engraved in stone )*

In Iredell County, the ICARS two meter FM repeater on 146.085 input / 146.685 output will be activated by an ARES volunteer NCS operator.

**1st)** The NCS operator will make an announcement of ARES activation by using the AARES Emergency Net Preamble@ and begin asking for members to check in.

**2nd)** The NCS operator will use the ARES AMuster Log@ to list those members checking in.

**3rd)** The NCS operator will assign a fixed 2m FM liaison station to establish and maintain communications with the Mecklenburg County 2m FM ARES Net. This fixed station will require two 2m FM transceivers, one for Iredell County ARES Net and one for Mecklenburg County ARES Net.

**4th)** As Net assignments are made the NCS operator will open and maintain an ARES ANet Roster@ and relay that Net Roster information to his or her successor(s) before being relieved.

And if needed . . .

**5th)** The NCS operator will assign a fixed HF SSB liaison station to establish and maintain communications with State EOC ARES station NC4EO.5 This HF liaison station will also maintain 2-meter communications with the Iredell County ARES Net.

0 W4BFB: 146.94 - 600, 145.29 - 600, 145.23 - 600, 146.58 Simplex  
W4CQ: 146.06 - 600

5 NC4EO: 3923, 3927, 7232 kHz. Others will be assigned as needed.
